

CERT Class — About Us

Learn More and Register at
www.wcohcirt.org

The CERT concept was developed and implemented by the Los Angeles City Fire Department in 1985. The Whittier Narrows earthquake in 1987 underscored the area-wide threat of a major disaster in California. Further, it confirmed the need for training civilians to meet their immediate needs.

Using the training learned in the classroom and during exercises, you and other CERT members can assist your neighborhood or workplace following an event when professional responders may be delayed.

This training is a joint effort by the Warren County and the City of Mason CERT Teams.

We are a Nonprofit 501(C)(3)
